February 1, 2023

Abstract. Abstract.

1 Introduction

1.1 Motivation

1.2 Example

2 Preliminary

2.1 Dependently Typed Programming in Agda

2.2 Pure Type Systems

3 System F

3.1 Specification

Syntax.

Renaming.

Substitution.

Context.

Typing.

Semantic.

3.2 Soundness

Progress.

Subject Reduction.

4   System F with Overloading

Syntax.

Renaming.

Substitution.

Context.

Typing.

4.1   Specification

5   Dictionary Passing Transform

5.1   Translation

5.2   Preservation

5.3   Type Preservation Proof

6   Conclusion and Further Work

6.1   Hindley Milner

6.2   Semantic Preservation
